

Where can I get the COVID-19 Vaccine?

(Updated as of December 18, 2020)

The allocation of the current vaccines and the future vaccines against COVID-19 are still unknown. As of December 18, 2020, the Asthma and Allergy Clinic of Marin & San Francisco, Inc. has been approved by the California's COVID-19 Vaccination Program to receive the COVID-19 vaccine for administration. We do not know how many doses we will receive and when we will receive them. Please keep checking back at our website for updates. If we get the vaccines, we will start the immunization with priority as set forth by the CDC for our patients. At that time, we will inform you of the process on signing up for the vaccination.

Sincerely,

Schuman Tam, M.D.
